- E49. Elevated Creatine Kinase Levels With Second-Generation Antipsychotics. *Smita Agarkar, M.D.*
- E51. Aripiprazole-Associated Rhabdomyolysis in a Patient With Schizophrenia. *Kuo-Yung Chang, M.D., M.P.H., Yung-Fu Wu, M.D.*

Erratum:

In the article "Changes in Regional Cerebral Blood Flow After Repetitive Transcranial Magnetic Stimulation of the Left Dorsolateral Prefrontal Cortex in Treatment-Resistant Depression," (*J Neuropsychiatry Clin Neurosci* 2008; 20:74-80), "a 0.5-cm anterior . . ." in the "rTMS Treatment" portion of the Method section should be "a 5-cm anterior . . ." The stimulation site was located by the 5-cm method.
