

Submit to *The Journal of Neuropsychiatry and Clinical Neurosciences*

As the official Journal of the American Neuropsychiatric Association, the premier national organization of clinicians and investigators in the interdisciplinary areas of neuropsychiatry, behavioral neurology, neuropsychology, and the cognitive neurosciences, *The Journal of Neuropsychiatry and Clinical Neurosciences* is dedicated to publishing the work of renowned researchers, clinicians, and educators to advance the care of patients. *The Journal of Neuropsychiatry and Clinical Neurosciences* publishes peer-reviewed articles addressing critical subjects such as Alzheimer's disease, traumatic brain injury, Parkinson's disease, epilepsy, and seizure disorders, and is devoted to reporting discoveries in clinical neuroscience that are relevant to understanding the brain-based disorders of patients.

Contributions of our content to the literature are reflected in the *Journal's* h-index. According to Web of Science, the lifetime (1989-present) h-index of JNCN is **91**.

In 2019, our most discussed papers included:

Predisposing Risk Factors for Functional Limb Weakness: A Case-Control Study

Article in *The Journal of Neuropsychiatry and Clinical Neurosciences*, August 2019

Hiding in Plain Sight: Functional Neurological Disorders in the News

Article in *The Journal of Neuropsychiatry and Clinical Neurosciences*, October 2019

The Neural Correlates of Impaired Self-Monitoring Among Individuals With Neurodegenerative Dementias

Article in *The Journal of Neuropsychiatry and Clinical Neurosciences*, July 2019

Outcome Measures for Functional Neurological Disorder: A Review of the Theoretical Complexities

Article in *The Journal of Neuropsychiatry and Clinical Neurosciences*, December 2019

The Last Witness to Creation: A Case of Charles Bonnet Syndrome

Article in *The Journal of Neuropsychiatry and Clinical Neurosciences*, April 2019

The American Psychiatric Association Publishing Textbook of Neuropsychiatry and Clinical Neurosciences, Sixth Edition

*Edited by David B. Arciniegas, M.D., Stuart C. Yudofsky, M.D.,
and Robert E. Hales, M.D., M.B.A.*

For more than three decades, the *Textbook of Neuropsychiatry and Clinical Neurosciences* has been the gold standard for understanding the structural and functional foundations and rapidly evolving knowledge base of neuropsychiatric disorders. In the new edition, the esteemed editors have undertaken a complete reorganization, reconceptualizing the way the material is presented and integrating considerations of neuropsychiatric symptoms, syndromes, and treatments into chapters addressing the neuropsychiatry of neurodevelopmental disorders, acquired neurological conditions, neurodegenerative disorders, and primary psychiatric disorders.

The result is a text that flows easily and logically from general principles to specific diagnostic tools and conditions, making it a clinically relevant and eminently practical guide for medical students and residents,

psychiatrists, neurologists, psychologists and neuropsychologists, as well as a broad range of professionals who work in diverse clinical settings.

The *Textbook of Neuropsychiatry and Clinical Neurosciences* provides comprehensive, current, and evidence-based coverage in a forward-looking volume to train a new generation of clinicians in this important work.

Casebook of Neuropsychiatry

Edited by Trevor A. Hurwitz, M.B., Ch.B.,
and Warren T. Lee, M.D., Ph.D.

Casebook of Neuropsychiatry is comprised of 38 clinical cases based on real patient interactions that straddle the domains of neurology and psychiatry. The book is designed to supplement comprehensive texts by providing real-world accounts of patient presentations that clinicians are likely to encounter.

Textbook of Traumatic Brain Injury, Third Edition

Edited by Jonathan M. Silver, M.D.,
Thomas W. McAllister, M.D.,
and David B. Arciniegas, M.D.

The *Textbook of Traumatic Brain Injury* is a must-read for all of those working in any of the multitude of disciplines that contribute to the care and rehabilitation of persons with brain injury. This new volume is also a potentially useful reference for policymakers in both the public and private sectors.
