

In Appreciation

This issue concludes the 28th volume of the *Journal of Neuropsychiatry and Clinical Neurosciences*. The high quality of the neuropsychiatric scholarship offered to our readership in this volume reflects the exceptional contributions of our authors as well as the extraordinary efforts of the team of talented and dedicated professionals supporting the Journal. We are grateful for the counsel and contributions of our Consulting Editors, Associate Editors, and Section Editors, whose names are listed on the masthead of every issue. We thank, in particular, Michael Roy, Editorial Director, Angela Moore, Editorial Manager, Heidi Koch, Editorial Support Services Manager, T. Angelita Garcia, Assistant to the Editors, Susan Westrate, Production Manager, Rebecca Rinehart, Publisher, and the rest of the outstanding staff members of American Psychiatric Association Publishing. We appreciate the visionary leadership, loyalty, and contributions of the Officers and members of the American Neuropsychiatric Association (ANPA), and we are proud that the *Journal of Neuropsychiatry and Clinical Neurosciences* remains ANPA's official journal. Essential to our aim of adhering to the highest scientific and editorial standards is our peer review process, and we are indebted to our many peer reviewers for lending their expertise to the review of manuscripts submitted to the Journal. As a small measure of our gratitude, we recognize here the peer reviewers who participated in this process from September 2015 through August 2016. – D.B.A., C.A.A.
